## Take a 2nd look at our Level II Team

Our Family Birthing Center has something extra special—a Level II Team. Our expert staff—including pediatricians, OB/GYN specialists and nurses, family practice physicians and anesthesiologists—is prepared to handle complications that may arise during deliveries.

We care for babies born prematurely or those who need a little help adjusting to their new environment during the first few days of life.

There are lots of choices when having your baby. For all the right reasons choose Central Kansas Medical Center. We're Ready.
